Announcing a new strategic partnership:

Biodiversity Research Institute's mission is to assess emerging threats to wildlife and ecosystems through collaborative research, and to use scientific findings to advance environmental awareness and inform decision makers.

Tetra Tech is a leading provider of consulting and engineering services for government and commercial clients, providing sustainable and innovative solutions to complex problems focused on water, environment, energy, infrastructure, and natural resources.
Tetra Tech takes pride in applying the above principle to meet the diverse needs of our clients. Their broad field of expertise includes the following areas:

- Avian and Bat Studies
- Fisheries
- Cultural Resources
- Wetlands
- Soils
- Wildlife and Terrestrial Biology
- Geospatial Analysis and Mapping
- Permitting and Project Strategies
- Rare, Threatened, and Endangered Species
- Project Compliance and Inspection

BRI’s core values stand at the heart of their staff: commitment, creativity, collaboration, integrity. BRI specializes in the following programs:

- Arctic Program
- Mammal Program
- Marine Bird Program
- Raptor Program
- Songbird Program
- Tropical Program
- Waterfowl Program
- Wetlands Program
- Wildlife and Renewable Energy Program
- Wildlife Health Program
- Center for Mercury Studies
- Center for Loon Conservation
